

WORKSHOP EVIDENCE-LED CONTAMINATED LAND PLANNING AND MANAGEMENT: THINKING OUTSIDE THE DIG & DUMP BOX

MONDAY 19 OCTOBER 2020 | 10AM-2.40PM | ONLINE + HUBS

WHERE IS IT?

Online or at a hub (there will be at least one), where you will be fed and watered and can network with other attendees

WHO SHOULD ATTEND?

Developers
Commercial planners
Council planners
Environmental health officers (or regional council equivalent)
Civil project managers
Contaminated land consultants

WHAT WILL I COME AWAY WITH?

The confidence to:

- make good decisions by evaluating data pragmatically
- identify a range of relevant remediation options that incorporate economic and environmental sustainability
- achieve defensible remediation outcomes by thinking critically

WILL IT BE AN INTERACTIVE WORKSHOP?

Yes, the attendees will work through exercises in small groups over the day, feeding back their responses to the group

WHAT WILL BE PRESENTED AND BY WHOM?

Why we do what we do: The rules and their intent

Louis Brown South Wairarapa District Council and **Michelle Begbie** Waikato Regional Council

Sampling and analysis for better data

Simon Beardmore e3Scientific

Data analysis: It's not just a numbers game

Simon Beardmore e3Scientific and **Erin Berry** Greater Wellington Regional Council

Fit for purpose? What the numbers tell you

Dave Bull HAIL Environmental

Remediation decisions – the American way!

Terre Nicholson HD Geo

Beyond dig and dump: Economic and environmentally sustainable remediation

Chris Hillman Tonkin + Taylor
