

**COMING  
SOON**

**TO A TOWN NEAR YOU**

# Ecosystem damage and climate change

## Upstream

- Biodiversity loss
- GHG emissions
- Pollution
- Land use change

## Downstream

- 
- Litter
  - Leachate
  - GHG emissions
  - Pollution

**Businesses can  
adapt systems and design  
products to prevent and  
reduce waste**

**Dioxins, PFAS and heavy  
metals are bad news  
for people's health**

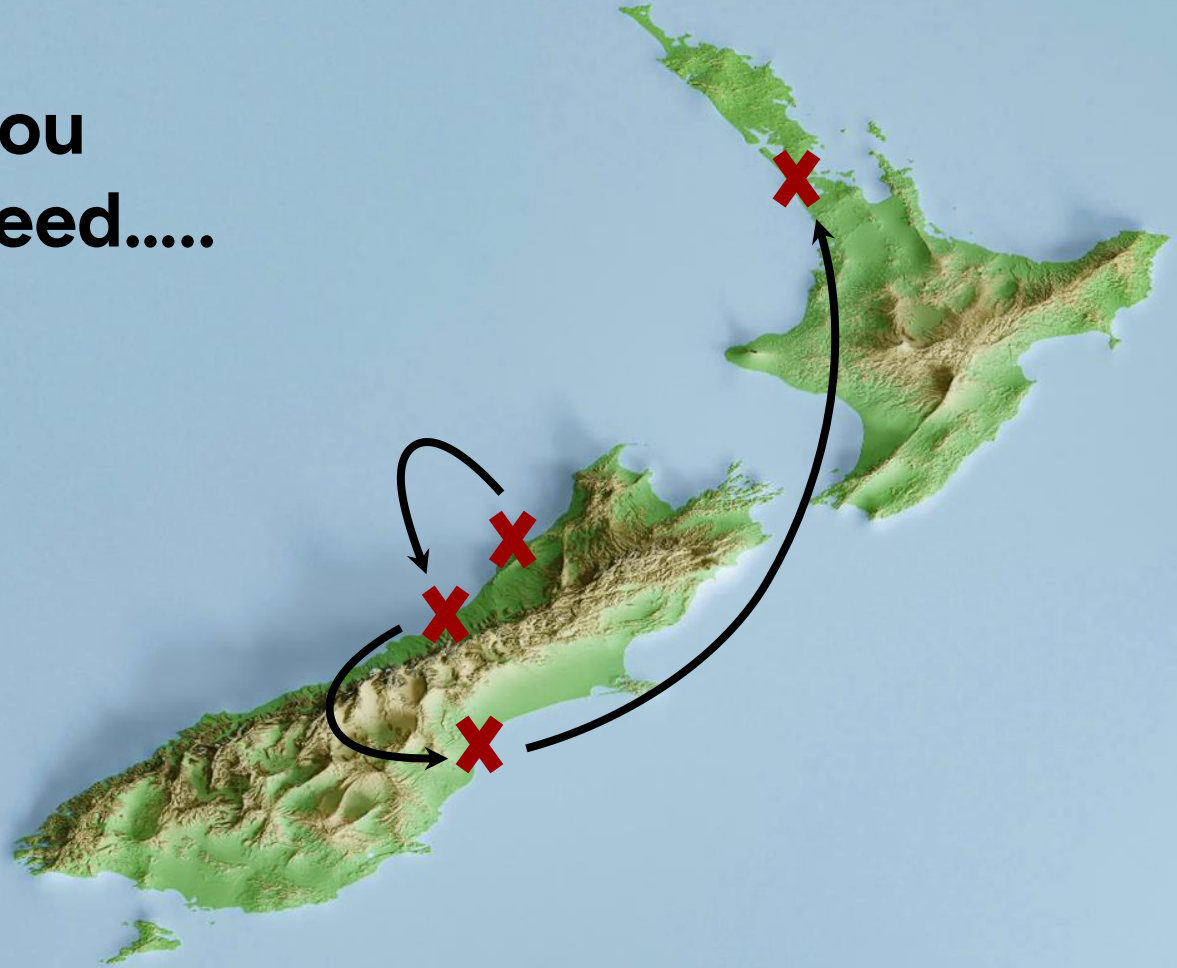

**Incinerators emit CO2  
we should invest  
in renewables**

**We can't afford to invest  
in industries that  
harm whānau and Te Taiao**

**If at first you  
don't succeed.....**

**DON'T  
TRASH  
OUR  
TOWN**
