

WORKSHOP GROWING YOUR CONTAMINATED LAND RISK ASSESSMENT SKILLS

MONDAY 23 SEPTEMBER 2019 | 10am-5pm | CLAUDELANDS, HAMILTON

WHO SHOULD ATTEND?

- Planners
- Council contaminated land officers
- Industry environmental managers
- Junior consultants
- Senior consultants

WHAT WILL I COME AWAY WITH?

- An appreciation of what risk assessment is, from a human health perspective, and what it can and can't do
- An understanding of how Conceptual Site Models are developed and used
- An understanding of how the NES soil contaminant standards are calculated
- The basics of site-specific risk assessment
- Experience with practical exercises

WILL IT BE AN INTERACTIVE WORKSHOP?

- Yes, the attendees will work through exercises in small groups over the day, feeding back their responses to the group
- There will be a panel discussion at the end of the workshop

WHAT WILL BE PRESENTED AND BY WHOM?

Risk assessment - who, what, where, how and why

Therese Manning
Environmental Risk Science Pty

Conceptual Site Models: What, where, how and why

Timothy Dee
Aurecon

Where the site contaminant standards come from - parts 1 & 2

Graeme Proffitt
Pattle Delamore Partners

Exposure assessment, effects assessment - it's not all about the numbers (actually, it is!)

Therese Manning
Environmental Risk Science Pty

Risk assessment according to a regulator

Sally McKinnon
Gisborne District Council
